The SANTA FE TRAIL

The Santa Fe Trail greatly changed the lives of the Native Americans. The buffalo was the main source of their food. Buffalo hides and bones were made into clothing and tools. Buffalo hides were also used to make their tepees or homes. This way of living disappeared when the traders and the railroad came west. Draw a tepee below for the Native American children. You can draw any kind of decoration on your tepee that you would like.

Imagine that you were traveling with the traders on the Santa Fe Trail 200 years ago. What kind of things would you have seen? Put an X on the pictures of things that you would NOT have seen on the Santa Fe Trail.

The Santa Fe Trail travels through more of Kansas than any other state. Label the state symbols of Kansas:

MEADOWLARK, HONEYBEE, BOX TURTLE, COTTONWOOD, SUNFLOWER, BUFFALO
